

RADAR[®] Rates

90 Day Rate Protection with Quote ID

At Radian we appreciate your partnership and are **committed to protecting your rate quotes during this time of change.**

Regardless of how you receive a quote, it's vital to save and reference Quote IDs when submitting your MI application to ensure the best rate for your borrowers.

How Does Rate Protection Work?

- Radian issues you a unique Quote ID with every MI rate quote you obtain.
- Include your valid Quote ID when submitting your MI Application through your LOS or Radian's MI Online portal or contact Customer Care if you need assistance associating a Quote ID with your MI Application.
- Radian automatically provides you with the lowest MI Rate possible by comparing rates available on the date your Quote ID was issued and rates available on your MI Application date.

What if Something Changed on the Loan?

- Radian will honor rates from the Original Quote ID date as long as there are no material differences between the quote and the MI Application. Tolerances associated with FICO, DTI, and loan amount minimize the likelihood that small changes will impact the rate.
- If tolerances are breached, Radian still provides you the best available MI rate for the loan when comparing rates available on the date of your original Quote ID or MI Application date.
